

*Innovative technology
empowering surgeons*

Collin is pleased to welcome you at the 8th Congress of European ORL-HNS in Gothenburg.

Visit our stand and discover the RobOto[®] surgical robot and the Collin Navigation Solutions[®] system.

→ We look forward to seeing you in Gothenburg!

Robotics in ear surgery is at the heart of this year's ORL-HNS scientific programme. Several presentations throughout the congress address robot-assisted cochlear implantation and otologic surgery:

Sunday, Apr. 26 Free Paper - Abstract Session
Presidents' track (*Congress Hall*) → 15:00-16:30

Monday, Apr. 27 Round Table
Otology/Implantable hearing devices (*R18*) → 11:30-12:45

Monday, Apr. 27 Free Paper - Abstract Session, Otology/neurotology
Robotics in otologic implantations (*J2*) → 15:00-16:30

Tuesday, Apr. 28 Free Paper - Abstract Session, Otology/neurotology
Vestibular function; implants (*H1*) → 15:00-16:30

Wed., Apr. 29 Keynote Lecture, Otology/neurotology
Current status of robots in ear surgery (*J1*) → 10:45-11:15

→ Come and meet us!

Stand C03:35
